Sprint Goals

Describe what was planned to achieve, the roadmap elements you wanted to target, and the milestones in the Sprint

- Adding an employee
- Creation of a booking

Status Overview

Describe the planned sprint items, compare finish vs unfinished, added vs removed, changed priorities.

Explain how you will continue to work with uncompleted work.

- Only adding an employee was implemented for the front end. For backend, adding and deleting the employees were implemented.
- Booking backend completed and bugs fixed. Booking frontend only creation of booking was created with some minor bugs to be fixed.
- Unit tests written for backend and frontend.

- To complete the uncompleted work, deletion of the booking and deletion of employees for frontend will be implemented and identifying more bugs and fixing them up will be the focus for the next sprint
